

This guide introduces users to the World Bank's Enterprise Survey replication package, which replicates the firm-level and economy-level WBES indicators created in 2024. It includes step-by-step instructions on how to use the package to generate the indicators using the firm-level cross-country database found on the [Data Portal](#). The replication package contains the following subfolders:

1. **do\_file** 'Replication of WBES Indicators Created in 2024.do'. This is the only do file needed to run the replication.
2. **Read me** file with detailed instructions.

### **Step-by-step instructions:**

Users can follow these steps to run the replication package and produce the firm-level and economy-level WBES indicators created in 2024. :

1. **Download the files:** from the Enterprise Survey front page, navigate to [Data Portal \(https://login.enterprisesurveys.org/\)](https://login.enterprisesurveys.org/). From the "Combined Data" tab, download the cross-country standardized surveys database, with the file name ***StandardizedNew-2006-2025-core4.zip (or the most recent available standardized file)***.
2. **Prepare the data:** unzip the data and save them in the replication folder.
3. **Run the replication:** after the run, the firm level and country level WBES indicators created in 2024 can be found in the same folder where the do file is saved.
